

Forest Edge Cluster Association

Do I need to submit an Architectural Change Form?

All exterior changes/replacements require this form.

For example:

New landscaping, Replacement/changes to Decks, New exterior doors or windows, New garage doors, Garage or other exterior lights, are some examples.

If you are not certain, just email or call Cindy at R&D Management.

New Deck Colors:

Wood Decks: Home Depot: Behr Solid Color Stain Taupe SC-153

Lowe's: Olympic Maximum/Wood Protector Rescue IT! Taupe (no color number)

Wood Lattice: Painted/Stained White

Composite Decking: Refer to "Documents" -Patio-Deck Clarification 2016. ** Must complete Architectural Change Form

Awning options: Updated 2021

Sunbrella Black Forest #4923

Front Garage Door Colors:

Sherwin Williams Taupe/Sandstone

Sherwin Williams white

Front Door Colors:

Forest Edge West residents: If a front door color change *is desired*, they may now be painted at homeowner expense either black or white. If a homeowner prefers any other color—**it must be approved by the board first**. Please *email Cindy at R&D Management* with your requested paint color and manufacturer. (An architectural change form is NOT needed for this—just email approval from the board.) Storm doors must remain white.

Forest Edge East residents: If front door color change is desired, they may now be painted any color but Pink, and can get any storm door and color desired. When the doors were painted last, this decision was made by the Board since the doors cannot be seen at all from the street.
